

Video Commander®

NEW 3 year warranty (except batteries and harddrives)

Complete professional video surveillance kit. Makes setting up surveillance quick and easy. This system has been used by government and major corporations, where its effectiveness generally results in fast return on investment. Security directors have received many accolades from management for the results of surveillance accomplishments with the Video Commander kit. High impact ventilated carrying case (with whisper fan) and high density molded foam enclosures to protect equipment.

Video Commander Kit SW1000WIPC-D

- 120gb motion sensing net enabled digital video recorder
- Rechargeable electronic battery to operate DVR and system for approximately 40 hours
- Choice of any two, color wireless covert cameras
- One color circuit board camera with wireless transmitter
- LCD flat monitor (approx. 6")
- Wireless receiver with built in antenna
- Charger, meter, switchers, etc.

Extended Kit SW1000W2B-R

This surveillance kit is the most versatile made, as it is both wireless and wired and has a greater range potential — same as all items listed above plus:

- Wireless relay to extend range and penetration
- 3 sections (350 ft.) of high flex grey cable (for video and power) with snap connectors
- Two additional cameras of your choice, wired with snap connectors. Records one camera at a time.

Options and Accessories

A wide range of options and accessories are available, including:

- SW2CAMDACC allows 2 cameras to be recorded at one time. Includes 4 channel DVR, 12" flat monitor built into inside lid of case. One additional wireless receiver. Must be ordered at time of kit order.
- SW4CAMDACC allows 4 cameras to be recorded at one time. Includes 12" flat monitor built into lid of case, 3 receivers and a 4 channel DVR.
- SW1001PS spare battery with quick change cables.
